Abin Das

Frontend Developer | React.js | Flutter | NestJS | Laravel

Thiruvananthapuram, Kerala, India | abindas3.2@gmail.com | +91 8129272240 | linkedin.com/in/abin-das-9b9191228

Professional Summary

Frontend Developer with 3+ years of experience building responsive web and mobile applications with React.js, Flutter, NestJS, Laravel and Tailwind CSS. Moved from a B.Tech in Mechanical Engineering into software development through self-directed learning in web technologies and Flutter, backed by industry certifications and hands-on delivery since 2021. Has shipped ERP, food delivery, e-commerce, accounting and automotive platforms, with a focus on frontend architecture, REST API integration and page-load performance. Works well across design, frontend and backend teams.

Technical Skills

- **Frontend:** React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, jQuery
- **Backend:** NestJS, Laravel, PHP (including core PHP), REST APIs
- **Mobile:** Flutter, Dart
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Design and Automation:** Figma, UiPath (data scraping)
- **Tools:** Git, Bitbucket, Docker, Postman
- **Platforms and CMS:** Shopify, WordPress, Elementor, PrestaShop
- **Other:** Responsive Design, Performance Optimization, Digital Marketing, Solidity

Professional Experience

Software Engineer | Rayblaze Global Private Limited (Jan 2024 - Present)

- Built a car dealership platform, a school ERP and two real estate websites using Laravel and Blade templates, with responsive UI on mobile and desktop.

- Optimized frontend performance on the school ERP by trimming heavy page assets and redundant requests, so pages load faster for students and staff.
- Built a food delivery web app in React.js, simplifying the ordering flow so customers complete orders with less friction.
- Built REST API endpoints in NestJS supporting the food delivery platform's order management flow.
- Built an online barber shop website in Next.js, with separate admin and user pages.
- Built an online tutoring website using core PHP.
- Delivered an online dog food ordering store on Shopify, a cleaning company website on WordPress with Elementor, and PrestaShop projects.
- Develop Accoxi Touch, a Flutter/Dart mobile app for business accounting, building screens and features across its modules.

React.js Intern | Hubspire (Nov 2022 - Jun 2023)

- Built responsive interfaces for a logistics platform and a COVID vaccine booking platform using React.js and TypeScript.
- Optimized frontend performance, improving page load times and SEO-related metrics.
- Worked with UX/UI designers to turn mockups into usable, consistent interfaces.
- Took part in code reviews and debugging to improve code quality, and managed source code with Bitbucket.

Frontend Developer / App Developer | Molivet R&D (Oct 2021 - Oct 2022)

Progressed from Apprentice (Oct 2021 - Feb 2022) to Frontend Developer / App Developer (Feb 2022 - Oct 2022).

- Built a responsive landing page for a hospital using HTML, CSS and jQuery.
- Developed a Flutter mobile app for a food delivery business focused on cakes and pastries.
- Built the website for an interior design company.
- Created UI designs in Figma for web and mobile interfaces.
- Automated data scraping tasks using UiPath.
- Supported digital marketing work alongside development.
- Tested and debugged for responsive, cross-browser compatibility.

Projects

- **Logistics Platform and COVID Vaccine Booking Platform** (React.js, TypeScript): built responsive frontend interfaces during my internship at Hubspire.
- **Client Websites** (WordPress, Shopify, PrestaShop, HTML/CSS/JavaScript): built sites for room booking, a dental clinic and business sales listings.

Education

Bachelor of Technology, Mechanical Engineering | PRIST University (2017 - 2021)

Certifications

- Ethereum and Solidity: The Complete Developer's Guide, Udemy (2023)
- React + Redux, Sololearn (2022)
- Introduction to Flutter, Simplilearn (2022)
